Please read the following terms and conditions carefully. Your access to and use of this Website constitutes your acceptance of and agreement to abide by each of the terms set forth below. If you are using our Website on behalf of your organization, that organization accepts these terms.

These terms may be modified, changed, supplemented or updated by Brickchain Investments Limited (“Brickchain Investments”, “we”, “us” or “our”) in its sole discretion at any time without advance notice. We suggest that you visit this page regularly to keep up to date with any changes. ## Terms of token sale

Brickchain Investments will set up an Initial Coin Offering (“ICO”) with the purpose to fund the startup phase of the company. The coin created for this purpose will be named Brickchain Startup Coin (“BSC” or “Token”). The Token can only be exchanged with Ethereum (“ETH”).

Ownership of BSC will grant an initial exclusive access to the Brickchain Investments’ platform (our platform), where buildings will be listed and traded. Once fully developed, the use of our platform together with BSC ownership will come with benefits such as building tokens purchase at a discounted rate and private Building Public Offerings (BPOs) access.

BSC ownership will neither provide any direct revenues stream, nor any shares or rights to take any decisions that will impact Brickchain Investments’ business.

Brickchain Investments will reserve the right to retain an amount equivalent to 20% of the token issued in order to keep BSC’s volatility under control. BSC is not a speculation instrument. BSC should be bought by investors who strongly believe in the Brickchain Investments value proposition.

In order to keep the process as much transparent as possible, Brickchain’s forecasts and the use of funds are clearly described in the Website and in the document shared on the ICO’s Website page.

At the time of registration to the platform and in order to get a discounted rate for building tokens, BSC owners will be asked to provide additional personal information.
